Crystal Wynn-Lewis, MPA

Racial & Ethnic Disparities Coordinator

NCDPS Division of Juvenile Justice & Delinquency Prevention

Agenda

- ▶ What is **RED**?
- ▶ Review the requirements of federal law (JJDPFA) for addressing **RED**.
- ▶ Define the problem by evaluating NC **RED** data.
- ▶ Discuss how NC is working to identify and reduce **RED** in the JJS.

Quick Facts on RED in NC

- ▶ Youth of color make up 46% of the youth population ages 6-17 in NC but represented in FY 21-22:
 - 71% of complaints received
 - 80% of detention admissions
 - 78% of commitments to YDC
- ▶ Black/AA youth make up 24% of the youth population ages 6-17 in NC, but represented in FY 21-22:
 - 58% of complaints received
 - 66% of detention admissions
 - 66% of commitments to YDC

What is RED?

- ▶ “Racial and Ethnic Disparity,” as defined by the JJDP, means that:
 - minority youth populations are involved at a decision point in the juvenile justice system at disproportionately higher rates than non-minority youth at that decision point.

34 U.S.C. § 11103(41)

Juvenile Justice Delinquency and Prevention Act (JJDP) of 1974

- ▶ The JJDP was the first comprehensive juvenile justice legislation passed by Congress.
- ▶ The law specifically outlines standards for the fair treatment of juveniles and authorizes states to innovate efforts to prevent delinquency.
- ▶ Established the Office of Juvenile Justice & Delinquency Prevention (OJJDP).
- ▶ Voluntary partnerships – federal govt. & states.
- ▶ Provides funds to improve delinquency prevention.
- ▶ State plans must adhere to requirements.
- ▶ States agree to certain standards of care for juveniles.
- ▶ 4 Core protections of JJDP.

Compliance with **RED** Core Requirement

Juvenile Justice Data Collection
Contact Points, Percentages & Relative Rate Index

RED Core Requirement

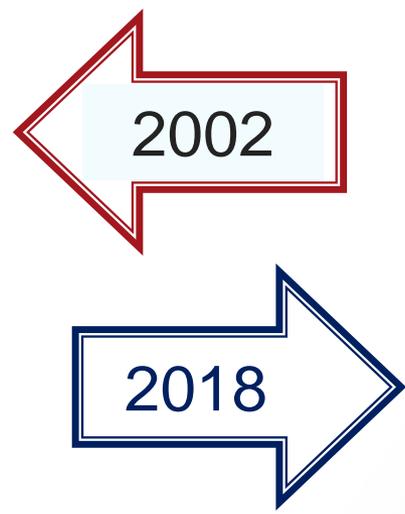

- ▶ States and territories must “implement policy, practice, and system improvement strategies at the state, territorial, local, and tribal levels, as applicable, to identify and reduce racial and ethnic disparities among youth who come into contact with the juvenile justice system, without establishing or requiring numerical standards or quotas, by—
 - A. Establishing or designating existing coordinating bodies, composed of juvenile justice stakeholders (including representatives of the educational system) at the state, local, or tribal levels, to advise efforts by states, units of local government, and Indian Tribes to reduce racial and ethnic disparities;
 - B. Identifying and analyzing data on race and ethnicity at decision points in state, local, or tribal juvenile justice systems to determine which such points create racial and ethnic disparities among youth who come into contact with the juvenile justice system; and
 - C. Developing and implementing a work plan that includes measurable objectives for policy, practice, or other system changes, based on the needs identified in the data collection and analysis under subparagraph (B).”

34 U.S.C. § 11133(a)(15)

State Compliance

- ▶ State compliance is required for Title II funding.
- ▶ Compliance is achieved when states address **RED** through:
 - Identification
 - Development of 3-year **RED** action plan
 - Outcome-based evaluation
- ▶ Requires data collection related to 5 “contact points”
- ▶ GCC monitors compliance as NC’s Designated State Agency (“DSA”).

What are you doing with your **RED** Data?

- Use information in helping law enforcement, judges, community leaders, and other decision makers understand the reality of racial and ethnic disparities within their jurisdictions.
- Discuss with JCPCs the data, to help assist in their annual planning.
- Use data to determine how to best utilize funding dollars.
- Examine resources on hand and determine from the data how to distribute them to ensure all youth have access to the same opportunities.
- Talk to LE share the data; see what their policies are; find out if they are encouraged to divert young people and if there are diversion programs available?
- Ask the community and family what they think. What are you hearing from the young people?

Addressing RED in NC: Current Juvenile Justice Efforts

The **RED** Section of Court Services' primary role is to assist jurisdictions in reducing the disproportionate representation of youth of color in the NC juvenile justice system.

- **Racial & Ethnic Disparities Data Analysis** - Juvenile Justice statewide data is collected daily, annually, on all 100 counties in North Carolina. Jurisdictions are provided the race and ethnicity data at all key contact points in JJ system.
- **Education and Awareness** - Provide consultation with districts on programming needs and/or services related to YOC populations.
- **JJDPA Compliance** - Work with the Governor's Crime Commission in NC on compliance, as recipients of federal delinquency prevention funding for program and services for these youth. Members serve on the GCC RED Subcommittee.
- **Grant Management** - Solicit and apply for grants related to reducing RED through any of the reduction strategies identified, to include assisting jurisdictions with grant applications.
- **Juvenile Minority Sensitivity Training (JMST)** – Ensure that the annual training, which is legislatively mandated for juvenile justice involved staff, includes topics related to current issues face by youth of color.

School Justice Partnerships

- ▶ DJJDP actively supports and promotes the development of SJPs throughout NC, and
 - Collaborates with stakeholders on policy changes via JJAC.
 - Released the “SJP Dashboard” in 2021.

Relative Rate Index (RRI)

The RRI is A rate of comparison which provides some context by dividing occurrences at decision points by the number of youth in the general population.

An RRI of 1.0 shows proportionality. Disproportionality is determined when the RRI is Greater than > 1 in all JJ Contact Points, except for **Not Approved** and **Cases Disposed**. These two points suggest disproportionality when the RRI is Less than < 1 .

Rate of Delinquency Complaints for Whites:
21.5 for every 1,000 White youth aged 6-15 in NC.

Rate of Delinquency Complaints for Blacks:
65.1 for every 1,000 Black youth aged 6-15 in NC.

65.1 (Black Rate)

21.5 (White Rate)

RRI = 3.027

Black youth are 3 times more likely to have a delinquency complaint as compared to their White counterparts.
