Orange County Solid Waste Management
Recyclable Material Permit Application

(Applies to the Town of Carrboro, Town of Chapel Hill, Town of Hillsborough and rural Orange County)
For additional information go to our webpage at http://orangecountync.gov/recycling

Please read and understand the following terms:

- A Recyclable Material (RM) Permit is required for all projects and is tied to the issuance of your building or demo permit.
Incomplete and/or unsigned and dated RM permit applications will not be considered & will be returned resulting in a delay of the issuance of your building or demolition permit.
The permit applies only to the project listed below and is valid for as long as the related building or demo permit is active.
Not following permit conditions is a violation of the Regulated Recyclable Materials Ordinance (RRMO) and may result in criminal or civil penalties and may result in the loss of Recyclable Material Collector's License, if applicable.
A collector's license is required for hauling regulated construction & demolition debris in vehicles larger than 9,000 lbs. GVW. For additional information on hauler licensing see our web-page at: http://orangecountync.gov/recycling.
All structures 500 SF or larger that will be demolished require a deconstruction assessment BEFORE the demo permit can be issued. Contact Orange County Solid Waste Enforcement staff at 919-968-2788 to arrange for the assessment.
Regulated material management requirements include:
1. Clean wood waste (not painted, stained, treated), scrap metal, and corrugated cardboard must be recycled and cannot be landfilled.
2. Certified C&D material reclamation facilities (MRF's) may be used as an alternate to source separation or bringing them to the Orange County C&D landfill.
3. C&D materials may not be disposed of through burning.
4. Land clearing inert debris (LCID; vegetative debris) cannot be burned and may be brought to the Orange County C&D landfill for recycling at reduced tip fees.
5. Appliances and tires are banned from all landfills in NC and facilities exist at the Orange County C&D landfill for recycling these items at reduced tip fees.
Solid Waste enforcement staff may enter the job site to observe if any regulated recyclable materials are being placed in waste containers with other C&D waste materials and if so, a Verification Tag will be placed on the container which must be given to the scalehouse operator at the certified facility where the container must be taken.
The RM permit shall be kept on the job and in the permit box for the duration of the project.
For questions contact the Enforcement Officer at Orange County Solid Waste at 919-968-2788.

I have read, understand, and agree to comply with the terms of the Recyclable Material Permit:

X _____ Date: _____

Applicant Information:

Project address: _____ PIN #: _____
