Orange County Health Department Seeks Volunteers for the 2023 Community Health Assessment

Hillsborough, NC May 9, 2023 — The Orange County Health Department (OCHD) is seeking volunteers to assist with the 2023 Community Health Assessment (CHA) data collection process. The CHA is an organized collection, assembly, analysis and sharing of information about the health of Orange County. This comprehensive process will help identify health issues and barriers that prevent Orange County residents from living their best and most fulfilling lives.

We are accepting volunteers to help us collect community input and data through various community events and engagements.

To view community events and to sign up to participate, visit <https://www.surveymonkey.com/r/CHAvolunteers> or contact Ashley Rawlinson at 919.245.2440 for more information.
